

Malcolm and his friends are an unlikely trio.
One wacky inventor and two professional thieves.

Watch them take the money and split.

MALCOLM

A Comedy of Hopes and Schemes

January 26 Sunday at 2pm Malcolm (1986)

Metcalfe Auditorium, State Library NSW. 85 minutes

“Nadia Tass's Malcolm was originally released in 1986 and struck a national chord with the Australian public as a genuine expression of offbeat Australian humour. This charming comedy is the story of slow-witted Malcolm (Colin Friels) a young man with a genius for mechanical devices. When Malcolm loses his job as a conductor - for building his own tram - he meets Frank (John Hargreaves) a man with a shady past who moves in to help Malcolm pay the bills. Cue Malcolm's unusual entry into a life of crime. Assisted by Frank, and the remote control tinker toys he once used to pick up milk from the corner shop, Malcolm lays his plans to pull off the heist of the century.... Accompanied by an infectious music score, you can again witness the magical combination invention and true originality that saw Malcolm win 8 AFI Awards, including Best Film, in 1986.”

Tickets \$25/ \$20 at the website home page right hand side or call 0419 267 318
